

The UConn Institute for Systems Genomics Presents
The Genome Ambassador Program (GAP) Seminar Series:
From Genes to Goals: Navigating Your Professional DNA

The **Genome Ambassador Program Seminar Series** highlights the stories of distinguished speakers to provide students, alumni, and staff with opportunities to learn about unique career trajectories, build skills in leadership and advocacy, and embrace diversity as professionals in the dynamic life sciences field.

Elizabeth Steidle, Ph.D.
Clinical Genomics Scientist
Myriad Genetics Inc.

GAP Leadership proudly support a **UConn Career Champion** philosophy to offer career exploration opportunities for students. Join us to learn about the career journeys of professionals and their experiences navigating the workforce.

Wednesday, November 5th at 5 pm ET
